

Best Path Recommendation Report

A. Informations générales

Framework	NDI
Date de génération	13/07/2026 17:00
Statut de la génération	Target score reached successfully.
Succès	Oui

B. Résumé des scores

Score global initial	2.48
Score global cible	3.48
Écart à combler	1.0
Gain total	1.048
Score global final estimé	3.53
Effort total	109
Target Reached	Oui

C. Résumé de l'optimisation

Stratégie utilisée	The selected path focuses on validated weighted gain, effort transitions and target coverage.
Nombre de domaines sélectionnés	4
Nombre de questions sélectionnées	13
Explication du chemin choisi	The path was selected because it reaches the target score while minimizing effortTotal and using validated NDI actions.
Explication de l'effort	The effort total is the sum of all validated NDI effort transitions for the selected actions.

D. Tableau Best Path

Priorité	ID domaine	Nom du domaine	Poids	Score actuel	Score cible	Gain score global	Effort total	Ratio efficacité
1	DQ	Data Quality	11.93	1	5	0.477	46	0.0104
2	DG	Data Governance	11.75	2	5	0.352	38	0.0093
3	DVR	Data Value Realization	3.68	2	5	0.11	16	0.0069
4	MCM	Metadata & Data Catalog	10.88	4	5	0.109	9	0.0121

E. Actions détaillées

Priorité 1 — DQ / Data Quality

Objectif du domaine : Improve Data Quality from score 1 to 5.

DQ.MQ.1 — Has the entity developed and implemented a Data Quality (DQ) plan focused on improving the quality of the entity's Data?

Score actuel : 1 | Score cible : 5 | Effort de la question : 10

Transition	Clé	Effort	Explication
None → 2	1_to_2	3	Define and approve a DQ implementation plan and roadmap.
None → 3	2_to_3	3	Implement the plan and assign formal DQ roles.
None → 4	3_to_4	1	Monitor DQ plan implementation using KPIs.
None → 5	4_to_5	3	Embed DQ in data/software lifecycle and optimize continuously.

Recommandation : Improve DQ.MQ.1 from score 1 to 5.

DQ.MQ.2 — Has the entity established / developed and implemented practices to manage and improve the quality of the entity's Data?

Score actuel : 1 | Score cible : 5 | Effort de la question : 16

Transition	Clé	Effort	Explication
None → 2	1_to_2	3	Prioritize data, define DQ dimensions, rules, and remediation processes.
None → 3	2_to_3	5	Conduct initial DQ assessment, resolve issues, and implement DQ tools.
None → 4	3_to_4	3	Monitor DQ thresholds, SLAs, and issue resolution processes.
None → 5	4_to_5	5	Use AI/ML for proactive profiling and adopt industry DQ standards.

Recommandation : Improve DQ.MQ.2 from score 1 to 5.

DQ.MQ.3 — Has the entity established and implemented practices to monitor and report the entity's Data Quality (DQ) status?

Score actuel : 1 | Score cible : 5 | Effort de la question : 10

Transition	Clé	Effort	Explication
None → 2	1_to_2	3	Define a formal DQ monitoring plan and set checkpoints.
None → 3	2_to_3	3	Conduct regular reviews and implement automated DQ scorecards.
None → 4	3_to_4	3	Track DQ trends and report based on pre-defined KPIs.
None → 5	4_to_5	1	Periodically review and improve monitoring practices.

Recommandation : Improve DQ.MQ.3 from score 1 to 5.

DQ.MQ.4 — Has the entity developed Data Quality (DQ) standards, provided definitions for its datasets, and published / uploaded the definitions on the National Data Catalog (NDC)?

Score actuel : 1 | Score cible : 5 | Effort de la question : 10

Transition	Clé	Effort	Explication
None → 2	1_to_2	3	Develop data standards, definitions, and identify metadata for the NDC.
None → 3	2_to_3	3	Onboard to NDC, publish metadata, and apply standards internally.
None → 4	3_to_4	1	Monitor standardization processes via KPIs.
None → 5	4_to_5	3	Proactively develop standards for new systems and continuously improve.

Recommandation : Improve DQ.MQ.4 from score 1 to 5.

Priorité 2 — DG / Data Governance

Objectif du domaine : Improve Data Governance from score 2 to 5.

DG.MQ.1 — Has the entity established & implemented a Data Management & Personal Data Protection (DM & PDP) Strategy and a DM & PDP Plan with Key Performance Indicators (KPIs) that can be continuously measured to ensure optimization?

Score actuel : 2 | Score cible : 5 | Effort de la question : 9

Transition	Clé	Effort	Explication
None → 3	2_to_3	3	Develop and initiate the implementation plan.
None → 4	3_to_4	3	Establish KPI monitoring and regular reporting.
None → 5	4_to_5	3	Implement periodic reviews and continuous strategy optimization.

Recommandation : Improve DG.MQ.1 from score 2 to 5.

DG.MQ.2 — Has the entity established and implemented Data Management (DM) Policies, Standards and Guidelines across all Data Management (DM) Domains?

Score actuel : 2 | Score cible : 5 | Effort de la question : 11

Transition	Clé	Effort	Explication
None → 3	2_to_3	5	Adopt policies entity-wide and build a compliance management framework.
None → 4	3_to_4	3	Track policy compliance and conduct periodic audits.
None → 5	4_to_5	3	Adopt innovative compliance monitoring mechanisms.

Recommandation : Improve DG.MQ.2 from score 2 to 5.

DG.MQ.3 — Has the entity established and operationalized all roles required for the Data Management Organization as per the NDMO Controls & Specifications?

Score actuel : 2 | Score cible : 5 | Effort de la question : 7

Transition	Clé	Effort	Explication
None → 3	2_to_3	3	Activate Data Stewards, PDP Officer, and Open Data Officer.
None → 4	3_to_4	3	Operationalize roles and track performance via KPIs.
None → 5	4_to_5	1	Periodically review and update roles and responsibilities.

Recommandation : Improve DG.MQ.3 from score 2 to 5.

DG.MQ.4 — Has the entity established and implemented practices for Change Management including awareness, communication, change control, and capability development?

Score actuel : 2 | Score cible : 5 | Effort de la question : 11

Transition	Clé	Effort	Explication
None → 3	2_to_3	5	Execute training campaigns and establish issue/change control registers.
None → 4	3_to_4	3	Monitor change management progress using pre-defined KPIs.
None → 5	4_to_5	3	Continuously improve practices using innovative change management methods.

Recommandation : Improve DG.MQ.4 from score 2 to 5.

Priorité 3 — DVR / Data Value Realization

Objectif du domaine : Improve Data Value Realization from score 2 to 5.

DVR.MQ.1 — Has the entity developed a plan for data value realization?

Score actuel : 2 | Score cible : 5 | Effort de la question : 9

Transition	Clé	Effort	Explication
None → 3	2_to_3	3	Implement plan, activate roles, and execute use cases.
None → 4	3_to_4	3	Monitor use cases and plan efficiency using KPIs.
None → 5	4_to_5	3	Regularly optimize plan and form new data partnerships.

Recommandation : Improve DVR.MQ.1 from score 2 to 5.

DVR.MQ.2 — Has the entity implemented data revenue practices?

Score actuel : 2 | Score cible : 5 | Effort de la question : 7

Transition	Clé	Effort	Explication
None → 3	2_to_3	3	Submit requests to DMO and implement revenue generation workflows.
None → 4	3_to_4	3	Monitor revenue process efficiency via KPIs.

Transition	Clé	Effort	Explication
None → 5	4_to_5	1	Continuously improve and optimize the data revenue process.

Recommandation : Improve DVR.MQ.2 from score 2 to 5.

Priorité 4 — MCM / Metadata & Data Catalog

Objectif du domaine : Improve Metadata & Data Catalog from score 4 to 5.

MCM.MQ.1 — Has the entity developed and implemented a plan to integrate and manage Metadata across the entity?

Score actuel : 4 | Score cible : 5 | Effort de la question : 1

Transition	Clé	Effort	Explication
None → 5	4_to_5	1	Continuously improve and optimize the metadata plan.

Recommandation : Improve MCM.MQ.1 from score 4 to 5.

MCM.MQ.2 — Has the entity implemented a Metadata Management and Data Catalog tool / solution?

Score actuel : 4 | Score cible : 5 | Effort de la question : 5

Transition	Clé	Effort	Explication
None → 5	4_to_5	5	Fully automate metadata capture and optimize the tool continuously.

Recommandation : Improve MCM.MQ.2 from score 4 to 5.

MCM.MQ.3 — Has the entity defined and implemented formal processes for effective Metadata Management, such as: prioritization, population, access management, and quality issue management, etc., supported & fostered by collaboration across the entity?

Score actuel : 4 | Score cible : 5 | Effort de la question : 3

Transition	Clé	Effort	Explication
None → 5	4_to_5	3	Optimize taxonomies/ontologies and improve processes regularly.

Recommandation : Improve MCM.MQ.3 from score 4 to 5.

F. Validation mathématique

Formule utilisée	$\text{scoreGlobalFinalEstimated} = \text{scoreGlobalInitial} + \text{gainTotal}$
Calcul	$2.48 + 1.048 = 3.53 \geq \text{target } 3.48$
Résultat targetReached	Oui
